Short description of the underlying problems that the commitments are aimed at
In spite of the existing Hungarian guideline and the Minimum standards of palliative care there are a lot of quality problems in provision of care.

Description of commitments (if more than one please list, please try to define clear, realistic and measurable goals for each commitment)

1. To develop the quality of care, the real multidisciplinary and the role of physicians in the team.

2. To improve the palliative education of physicians

3.

Goal, measurement of success and time (please list at least one outcome measurement for each commitment)

1. Update the quality protocols, special criteria and quality control. Ongoing, will be finish in 2009

2. Establish inpatient palliative service in a University Hospital in the next 3 years

3.

Short description of methodology and working process
