

## **Norgine Satellite Workshop**

Realising Unmet Needs in Breakthrough Pain

Chair: Dr Franco De Conno

# **Introduction and welcome**

# Rationale for workshop

The workshop is aimed at identifying the latest approaches to the recognition and management of breakthrough pain for palliative care patients and specifically addressing current gaps in management

# Meeting objectives

1. Understand the current burden of 'breakthrough' pain in palliative care patients (economic / social / clinical)
2. Gain an understanding of the current approaches to recognising, diagnosing and managing breakthrough pain
3. Recognise current unmet needs in breakthrough pain
4. Discuss approaches to address unmet needs

# Speakers

**Professor Marie Fallon**

*University of Edinburgh, UK*

**Dr John Zeppetella**

*St. Clare Hospice, Hastingwood, UK*

**Dr Philippe Poulain**

*Institut Gustave Roussy, Villejuif , France*

**Professor Christoph Stein**

*Freie Universität Berlin, Germany*

**Dr Carla Ripamonti (Co-chair)**

*National Cancer Institute of Milan, Italy*

# Programme

14:45–14:50	Introduction <i>Chair: Dr Franco De Conno, Italy</i>
14:50–15:10	The role of titration in the rapid onset of pain control <i>Professor Marie Fallon, UK</i>
15:10–15:30	The current burden of breakthrough pain <i>Dr John Zeppetella, UK</i>
15:30–15:50	Current approaches for diagnosing and managing breakthrough pain <i>Dr Philippe Poulain, France</i>
15:50–16:10	Principles and practice of novel opioid applications <i>Professor Christoph Stein, Germany</i>
16:10–16:30	Panel discussion: Future approaches to address unmet needs <i>Dr Franco De Conno / Dr Carla Ripamonti, Italy</i>
